SC (single crochet)

BLO (back loop only)

MBS (mini bean stitch - see "Special Stitch")

SPECIAL STITCH

Mini Bean Stitch (MBS): Insert hook into stitch, yarn over, pull through (2 loops on hook), yarn over, insert hook into same stitch, yarn over, pull through (4 loops on hook), yarn over, pull through all 4 loops, chain 1 to close stitch. (Because this stitch creates two sets of top loops, it counts as 2 stitches in final round counts.)

ADDITIONAL NOTES

- (1) Patterns are written in American Standard terms.
- (2) Any CHs at the beginning of rounds do not count as stitches.
- (3) All patterns are designed in a continuous spiral for a seamless finished look. Do not join, chain up or turn unless instructed.
- (4) For the finished measurements of the hats, height is measured from the bottom of the band to the top of the body, pom not included. Width is measured across the bottom of the body of the hat, at the point where the body and the band meet. (Band of hat is smaller but will stretch to fit.)
- (5) The poms on the hats are optional. You will have more than enough yarn left over to make two poms in either Scarfie (shown on the child-size sample) or Wool-Ease (shown on the adult-size sample).
- (6) Due to the nature of the ombre yarn used, no two hats or scarves will look the same.

LANDON SCARF

SIZE: TEEN/ADULT**Finished Size:** 6.5" wide x 60" around**Yarn:** Lion Brand Scarfie (310 yards)**Notes:** (1) For this pattern, use the larger of the two hooks (6.5mm, or whichever one you used to complete your gauge swatch). (2) Working into the back bump of the starting chain during Round 1 will help to keep the scarf from curling. It is a bit slower than working into one of the top loops, but worth it in the end.**To Begin:** CH192. Join with a SL ST, being careful not to twist the chain. (192)**Round 1:** CH1. Working in the back bumps of the starting chain, MBS in first ST, SK next ST. (MBS in next ST, SK next ST) around. (192)**Rounds 2-18:** (MBS in next ST, SK next ST) around. (192)**Round 19:** (MBS in next ST, SK next ST) around. SL ST into the first ST of the round. (192)

Fasten off and weave in all ends.

RIBBING TUTORIAL

Note: This tutorial documents how to complete a 6-stitch-tall ribbing. Depending on which pattern you are following, your numbers might vary, but the concept is the same.

INSTRUCTIONS

After completing the final round of the body of the hat, you will chain 7 (or whatever number your pattern tells you).

SC in the 2nd chain from the hook and in each remaining chain. Slip stitch into the first stitch from the final round of the hat (indicated by the red dot on the right in the photo). Then slip stitch into the next stitch from the final round of the hat (indicated by the red dot on the left in the photo).

After you complete your two slip stitches, chain 1.

Turn your work. The photo below shows the placement of everything you just did, after turning. The loop closest to your hook (not the one on your hook) is the CH1, the next two loops are your slip stitches, and the loop after that is the first stitch of your ribbing. To work back across the ribbing, skip over the CH1 and the slip stitches, and place your first SC in the back loop of that first ribbing stitch (indicated in yellow).

RIBBING TUTORIAL

Note: This tutorial documents how to complete a 6-stitch-tall ribbing. Depending on which pattern you are following, your numbers might vary, but the concept is the same.

Continue to SC in back loop of each ST across the ribbing except for the final stitch. Then, SC in both loops of the final stitch. This will give our hat a cleaner bottom edge. CH1 and turn your work. SC in both loops of the first stitch (again, to keep that bottom edge of the hat nice and clean), then SC in the back loop of each remaining stitch across the ribbing.

Next, the directions will instruct you to slip stitch in each of the next two stitches of the final round of the hat, just like we did earlier. But this is where your eyes can start playing tricks on you. Because the ribbing "pulls" the fabric, at first glance it looks like the stitch marked by an "x" in the photo is unworked. But it's not! It already has a slip stitch in it from earlier, and if you look closely, you can see it. If your ribbing is becoming rippled, it is because you are putting your next slip stitch in one that's already been worked. If you do that enough times, your ribbing will come out extremely puckered. So, avoid that "x" and put your two slip stitches into the next two stitches from the hat's final round. As with before, after you've completed your two slip stitches, CH1.

Turn your work. The photo shows you again where your stitches are in relation to your hook at this point. Skip over the CH1 and slip stitches, and SC in the back loop of the first stitch of the ribbing. Continue across the ribbing, remembering to SC in both loops of the final stitch. CH1, turn, and repeat the process all the way around the hat. When you finish, fasten off and use the tail to sew the first and last rows of ribbing together. Done!
